HTML,JAVASCRIPT & BOOTSTRAP

UDMEY

Address: 400701 Mumbai (India)

Website: <https://www.udemy.com/certificate/UC-1b076928-7635-45b3-a8c1-110b7b1d337c/>

Got good knowledge about basis of HTML page structure

learned about working of a website, how to use the tags using Microsoft VS Code

made a self project using HTML5 & CSS3 of a website

In JS learned about how to integrate JS components into web pages for dynamic client-side functionality.

Knowledge about Data types, Arrays, Objects, Functions, Callback, Promises, Async/Await.

Knowledge about DOM Tree & Events.

DIGITAL SKILLS

JavaScript / Html/CSS3 / Testing Debugging / API integration / DOM manipulations / Moderate knowledge of Github / AJAX (XHR) / Error Handling / bootstrap

PROJECTS

Created 7+ Projects using HTML 5, CSS3, JavaScript

Making a Portfolio Website

1. This project is a personal web portfolio that showcases my skills, experience, and projects as a web developer. additional created 7+ projects which is link to the Portfolio.

i. Features

A homepage with a brief introduction and a call-to-action button to view my portfolio. A portfolio page that displays my past projects with their descriptions, screenshots, and links to live demos or source codes. An about page that provides more details about my education, work history, and skills. A contact form that allows visitors to send me messages directly from the website. A responsive design that works well on different screen sizes and devices.

a. Technologies Used

HTML5, CSS3, and JavaScript for the front-end. Bootstrap framework for responsive design. Hosting on a platform named NETLIFY.

i. Goals

Showcase my skills and experience as a web developer. Provide potential clients and employers with an easy way to view my work and contact me. Learn and improve my skills in front-end development, responsive design, and server-side scripting.
